

Do you own a small vessel?

**Want to talk to an expert
vessel engineer
about how to save fuel?**

Demonstration: *Energy Analysis Tool*

Pacific Marine Expo

Thursday, Nov. 20th, 1:30-2:30pm

Conference Room #C1

NEW

Energy Analysis Tool

For the first time, real vessel energy audits were conducted on small vessels in Alaska's commercial fishing fleet. See those results, how they were incorporated into an "*Energy Analysis Tool*" which fishermen can use to make decisions about improving energy efficiency onboard, and ask questions of an expert vessel engineer, *Mike Gaffney of Alaris Companies*.

onboard a commercial fishing vessel.

Mike Gaffney, of Alaris Companies,

Made possible with grant funds from the State of Alaska & through a collaboration of:
